Subject: Re: Crandall, Mine Treatment Facility, Task ID #3461

Hi Suzanne,

The application has passed it's initial review and can go to technical review.

As far as the PFO goes, no one down there needs to review this so don't worry about getting them a copy. I'll get Kevin's copy of the last application and then we can insert the corrected pages into that. We'll then have two complete copies (one for PIC and one for review). Will that work?

Thanks,
stev

Hello Steve,

As you know, we received the above task on 1/6/10. The IR is due on 1/21/10.

Please notify me, cc to Jim and Daron, when the IR is complete. At that point, I will send an email notification to the operator and Jim will assign a team to review.

As you also know, we only received one complete hard copy which will go to the PIC, but there are 5 copies of the corrected pages for insertion into our review copies from the previous submittal.

Let me know if you would like an insertion copy to go to PFO.

Thanks!
Suzanne
